Condenser Microphone (S-1 & M1)

Precautions

- Do not try to open the microphone.
- Never let the microphone become wet with rain or saltwater.
- Clean with a soft, dry cloth when soiled.
- Keep the microphone away from extremely high temperatures and humidity (above 44°C or 111°F).

Using the Microphone

Connect the stereo miniplug of the microphone to a microphone jack of recording equipment compatible with the plug-in power supply system such as a MD recorder, videocamera, etc. Manual adjustment of recording level is recommended.

Specifications

Type : Condenser Microphone

Directivity : Omnidirectional

Frequency range : On Axis 20 - 20,000 Hz

Maximum sound pressure : 145 dBspl peak f> 250 Hz

S/N -69 dB typical

Total harmonic distortion : 130 dBspl peak below 0,4% THD

Open circuit sensitivity: 10 mV/PA

Operating temperature range : -20°C to 44°C (-4°F to 111°F)

Housing : S-1 Aluminium (M-1 Brass alloy)
